We want your feedback!

Please take a moment to complete our annual Client Survey by February 9th. We continually seek feedback to keep doing what is working well and make improvements where needed. As an added bonus, Credly will share the results with all respondents. (You won't want to miss our socks and shoes question!) Thank you!

Upcoming Webinar

In the spirit of starting the year off right, please join us on February 3rd at 1 PM EST for our webinar: **Resolve to Succeed.** We'll be featuring customers who have implemented best practices to make their credential programs stand out. We know this will be inspirational and informative! Register for the event here.

Customer Spotlight: Aviatrix
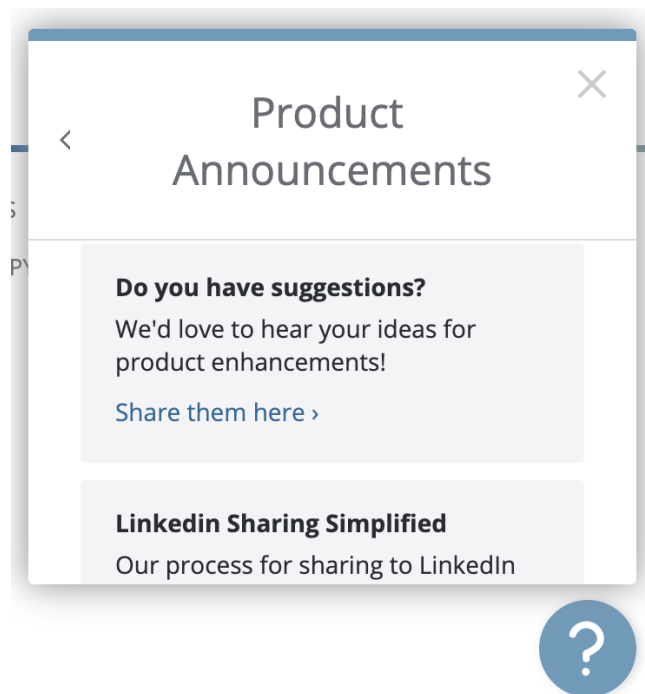

The Aviatrix cloud network platform delivers a single platform for multi-cloud networking, regardless of the public cloud providers used. Aviatrix combines advanced networking, security, and operational visibility required by enterprises with the simplicity and automation of cloud.

The Aviatrix Certified Engineer (ACE) program is the industry's first and only multi-cloud networking certification and training program. **With over 10,000 ACEs certified in over 100 countries in a single year**, Aviatrix is empowering individuals to advance their careers while also putting them in the best position to ensure their company's cloud transformation is successful. The global demand for ACE training in 2020 far surpassed Aviatrix's expectation. **Aviatrix credits the power of online self-paced training, cloud networking skills gaps, and active social sharing and digital badging in contributing to their tremendous ACE growth.**

Feature Requests

Don't forget: you do have input! When logged into the platform, there is a button for Issuer Resources at the bottom right of the page. Along with being a great place to find product announcements, that button eventually leads to a form where you can send us your feedback and ideas. We would love to know what would make your life easier and help you get even more value from Credly.

As always, if you have any questions or are looking for guidance in managing your program please reach out to your assigned Customer Success Manager or email customersuccess@credly.com.

All our best,

Credly's Customer Success Team
