Hello Credly member,

**All Treats, No Tricks. It's October!**

We're excited to move into a new season and provide a few treats for our customers.

We Got a Facelift.

Our scheduled downtime at the end of September allowed us to refresh and give our product a facelift. The main change is that navigation you might have found on the left is now on top. The functionality is the same.

There is one change in terminology. In place of Settings on the left, you'll now see Preferences.

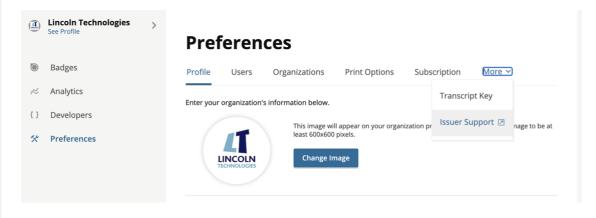

These updates to the navigation will serve as a foundation to introduce new features and functionality through the end of the year. We will continue to provide details in-app and through our newsletter

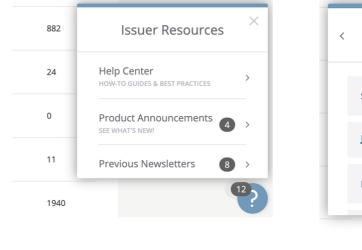

Are You on the Mailing List?

Clearly you are if you are reading this, but occasionally we have requests to add others. Let us know if any of your teammates should receive this newsletter, and we'll make sure they are added. These newsletters help us inform you of exciting changes to our platform, so we want to make sure that the right people are receiving them!
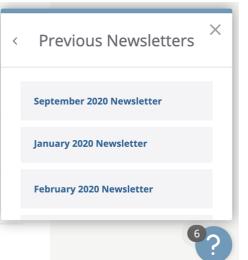

Back Issues of the Newsletter are Available.

Did you know you can find back issues through our Issuer Knowledge Base? Under Preferences, click on the Issuer Support link. Search for Newsletter or Archives and you'll see them listed. You can catch up on previous issues so you're fully informed.

You can also access our past newsletter issues when logged into the platform by clicking the question mark icon in the lower right corner of your screen.

As always, if you have any questions or would like to share feedback with us please either reach out to your assigned CSM or respond back to this email so the whole team receives your message!

Cheers,

Credly Customer Success Team
